

Today, CHU-NDS (Hospital of Our Lady of Relief) is pleased to announce that we have joined the United Nations Global Compact initiative – a voluntary initiative for the development, implementation and disclosure of responsible business practices.

With this announcement, CHU-NDS is proud to join thousands of other companies globally committed to taking responsible business action to create the world we all want.

The UN Global Compact is a call to companies everywhere to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, environment and anti-corruption, and to take action in support of Sustainable Development Goals (SDGs).

Launched in 2000, the UN Global Compact is the largest corporate sustainability initiative in the world, with more than 20,000 companies based in over 160 countries, and more than 60 Global Compact Networks.

“Our commitment to the SDGs is based on our belief that our Hospital can and must contribute in solving global challenges. Let’s work together to ensure that our commitment to sustainability is not only a core value but also a driver of lasting impact.” (Elias Abou Fadel, CHU-NDS Director)

As a participant of the initiative, we encourage you to visit [our profile](#) on the UN Global Compact website and learn more about our latest sustainability work.
